## Summer Parent & Toddler Programme

This Summer Programme is specially designed to provide children with a wide range of activities to engage them in their various interests during the long summer holidays. It will be weeks of new experiences and some favourite old ones too. The activities are designed to maximize the development of their potential and interests. The medium of instruction will be *English*. The programme contains the following areas of development:

### 1. *Creative Art*

This is to develop children's creativity and to give them opportunities to take pride in their accomplishments by exploring and using art materials, enriching their aesthetic development and increasing their sense of appreciation of their own work and the work of others.

### 2. *Early Literature*

A literacy-rich environment is provided for children to interact naturally and positively alongside each other and with adults as well. This aims to promote the enjoyment of reading books and singing nursery songs and rhymes.

### 3. *Creative Movements*

This area of development emphasizes coordination, strength, agility and flexibility, the basic elements in sports. At the same time, this will develop children's self-confidence and discipline, social, perceptual and emotional fitness in a safe and fun-filled environment.

### 4. *Farewell Event*

A Farewell Party will be held in the last lesson of the programme. This will allow children to share the fun they have had during the course and be ready for the new school year to come.
